Topical Lessons & Resources

Justice

Climate Justice for Youth and Young Adults

As disciples of Jesus Christ, we seek truth and practice faith. "The curriculum assumes that young adults are familiar with the basic facts about climate change: it is real, it is human-caused, it is a long-range consequence of the industrial revolution (when society began to burn fossil fuels), the impacts are serious and those impacts unjustly fall on the poorest and most vulnerable. If you are not sure that everyone is familiar with these facts, include review of them in your opening sessions."

Becoming Beloved Community

Anti-Racism

Each quadrant represents a commitment that is vital to lasting change within us, our churches, our communities and society at large.
